

Ultra Compact Body, Flexible Installation

The compact IC-M330E/GE measures only 156.5 (W) × 66.5 (H) × 88.2 (D) mm making it ideal for a cockpit where space is limited.

Intuitive User Interface

A combination of the directional keypad and soft keys provides simple, smooth operation. Most used functions are assigned to soft keys for quick one push function access.

New Speaker Delivers Dynamic, Clear Audio

A newly designed speaker delivers distortion-free clear audio even at full volume. It provides dynamic and clear audio over a wide bass and treble range.

Class Leading Receiver Performance

The IC-M330E/GE's receiver provides reliable communication in RF busy environment like a marina. (Selectivity and IMD: more than 70 dB)

Built-in Class D DSC

The radio monitors CH 70 continuously, even while you are receiving another channel. DSC functions include: distress, individual, group, all ships, urgency, safety, position request/report, polling request and DSC test calls.

GPS Receiver Built-in (IC-M330GE)

A built-in GPS receiver provides your location, bearing and speed by using information from GPS, GLONASS and SBAS. The acquired position information can be used for DSC calls.

Supplied GPS antenna
