

CHROMELOCK is the new series of refrigerators and freezers. The door has been redesigned, both from an aesthetic and a functional point of view.

The new door, with the same dimensions as the previous "AIRLOCK" series is lighter, sturdier and can be quickly and easily customized using finishing panels with a thickness from 0.8 to 3.0 mm.

Available in anti-fingerprint and anti-scratch matt black finish with soft touch effect, or in glossy gray laminate with pearl effect.

The new CHROMELOCK handle, metallized and tested for over 150,000 opening and closing cycles, incorporates the "vent position" system for keeping it in a slightly open position when not in use.

The series is dedicated to any need and to any type of vehicle: fridge-freezer, fridge only, with door or drawer opening, also choosing whether to have an internal or remote refrigerating unit up to 1.5 m..

THE AIRLOCK SERIES IS FULLY AVAILABLE.

CHROMELOCK SERIES AVAILABILITY IS CONTINUOUSLY UPDATED

### SLIM SERIES

	SLIM 150	SLIM 90
Total volume - Capacità totale (lt.)	140	82
Freezer compartment - Vano freezer (lt.)	16	10
